

DIGBY WELLS
ENVIRONMENTAL

PRESS RELEASE

Date:	01 October 2021
Title of press release:	Digby Wells and Associates Tanzania <i>Expanding environmental and social services to the Tanzanian mining and natural resources sectors.</i>

Graham Trusler, CEO of Digby Wells Environmental (Digby Wells), has announced that the group's localisation plans have taken a major step forward with the approval of the Local Content Plan for its Tanzanian subsidiary ESD Advisory Limited. "We endorse the philosophy of local management and staff as an integral part of our business, with all our offices being locally staffed and managed, thus ensuring that our teams have a comprehensive knowledge of National and Local legislation relating to the Environmental, Social, and Health and Safety Issues."

ESD Advisory Limited, trading as Digby Wells and Associates Tanzania, will create new jobs and opportunities in the local economy and is a welcome addition to the growing natural resources sector in Tanzania.

Digby Wells provides environmental and social services which focuses on the mining, oil & gas, agricultural, natural resources, and energy sectors; the client base includes the largest multi-national, mid-tier, and junior companies. In addition to the Tanzania Office, Digby Wells has offices in South Africa, Botswana, Mali, the United Kingdom and Jersey. The group has a presence in Ghana, Liberia, the DRC and Senegal and is registered by the Governments of the DRC and Liberia as an environmental services provider.

Areas of expertise and services include:

- Environmental Compliance
- Ecology and Atmospheric Services
- Geographic Information Systems
- Rehabilitation, Remediation, Closure and Soils
- Renewable Energy
- Social and Heritage
- Environmental, Social and Governance

- Water Geosciences

Our projects are undertaken in accordance with Tanzanian specific requirements and international standards such as the Equator Principles, International Finance Corporation (IFC) and World Bank Group Guidelines.

Digby Wells' exclusive focus on environmental and social solutions, accompanied with vast in-house specialist capabilities required throughout an operations lifecycle, ensures overall project independence, efficiency, project management, and value-added cost benefits.

DIGBY WELLS ENVIRONMENTAL – BACKGROUND AND CURRENT ACTIVITIES

Founded in 1995, Digby Wells Environmental (Digby Wells) is one of the leading global environmental consultancies and has been consistently providing fit for purpose, cost effective environmental and social solutions to our clients for over 26 years.

Digby Wells specialises in providing environmental and social services to the Mineral Resources, Oil & Gas, Infrastructure and Energy sectors globally. Projects are undertaken to in-country legal requirements and international standards such as the Equator Principles, International Finance Corporation (IFC) Performance Standards and World Bank Group Guidelines.

Digby Wells' focused approach is inspired by the companies' mission of being the preferred Environmental and Social solutions partner across the resources industry, thus ensuring long term sustainable growth and value creation for all stakeholders throughout the project and client lifecycle.
